

REDUCE, REUSE, AND RECYCLE GUIDE

FOR SAN MATEO COUNTY

OFFICE OF
SUSTAINABILITY
COUNTY OF SAN MATEO

WWW.SMCSUSTAINABILITY.ORG
888-442-2666

REDUCE WASTE

- Easy tips to reduce waste:
- Purchase items in bulk to reduce packaging.
 - Purchase items that are produced and grown close to home.
 - Rent or borrow items instead of buying new ones.
 - Use reusable items such as shopping bags, water bottles, travel mugs, food ware (plates, cups, straws and utensils), cloth napkins, pens, pencils, razors, and rechargeable batteries
 - Visit www.stopjunkmail.org to learn how to reduce unwanted mail.
 - Pack waste free lunches for school and work.
 - Reuse one-sided paper for printing or creating note pads.
 - Repair items such as clothes, shoes, electronics, and furniture. Do it yourself or use local seamstresses, shoe cobblers, repair shops, and furniture restoration shops.

SUSTAINABILITY ACADEMY OFFERINGS

COMPOSTING WORKSHOPS

These two-hour workshops are offered throughout the year. Learn how easy and fun it is to recycle your fruit and vegetable scraps, leaves, and plant cuttings into compost! Compost provides valuable nutrients for your garden soil, helps retain moisture which saves water, suppresses weeds, prevents soil erosion, and loosens clay and compacted soils for better drainage and water retention. It is rewarding to know you are turning what some consider waste into a nutrient rich organic material for your garden!

Visit www.smcsustainability.org/composting and www.smcsustainability.org/fixit-clinics or call us at 888-442-2666 to learn about the next workshop or clinic coming up!

FIXIT CLINICS

These three-hour workshops are offered throughout the year. Fixit Clinics are fun community-based workshops where neighbors, friends, and families work collectively to learn how to repair broken items. We will provide a workspace, specialty tools, and volunteer Fixit coaches to help you troubleshoot and provide routine maintenance to your household items and appliances!

BAY AREA RECYCLING OUTREACH COALITION

The Bay Area Recycling Outreach Coalition (BayROC) is a collaboration between staff representing over 40 San Francisco Bay Area cities, counties and other public agencies working together on waste reduction and buy-recycled concepts. Visit <https://bayarearecycling.org> to learn how to:

- Stop Food Waste
 - Reuse To Go
 - Stop Junk Mail
- Buy Recycled Products
 - Bring Your Own Bag

See pages 3-7 for reuse information.

See pages 8-12 for recycling information.

Recycling helps to reduce global warming

Manufacturing goods from recycled materials typically requires less energy and water than producing goods from virgin materials. When energy demands are decreased, fewer fossil fuels are burned, and less carbon dioxide is emitted into the atmosphere.

— U.S. Environmental Protection Agency - Climate Change and Waste

Many service stations will accept tires, antifreeze, motor oil, and oil filters. Fees may apply.

San Mateo County Household Hazardous Waste Program

Collection events are alternatives to using the locations listed above. Any County resident may participate in any collection event for free. For more information or to make an appointment, visit www.smchealth.org/hhw or call 650-363-4718.

Events rotate on Saturdays in Daly City, East Palo Alto, Foster City, Half Moon Bay, La Honda, Menlo Park, Pacifica, Portola Valley, Redwood City and South San Francisco, and are also held on Thursdays through Saturdays in San Mateo.

CLOSE THE LOOP AND BUY RECYCLED PRODUCTS

Recycling cans, bottles, paper, and other materials is the first step in the recycling process. Take the next step by shopping for products made from recycled materials. When you buy recycled products, you close the loop by incentivizing manufacturers to use recycled materials to create their goods.

Buying products made from recycled materials is a simple way to help the environment and ensure the long-term success of curbside recycling programs.

There are a variety of products made from recyclables, such as many types of paper, cereal and tissue boxes, toilet paper, plastic lumber and much more. One ton or 40 cases of recycled paper saves: 17 trees, 7000 gallons of water, and 4100 kwh of energy, enough to power the average home for 6 months, 60 pounds of air pollution and 2.5 cubic yards of landfill space.

When shopping, look for products containing the highest percentage of post-consumer recycled material you can find. Post-consumer recycled products are made from the materials you set out at the curbside.

Look for the recycling symbol and a statement that the product is made from post-consumer recycled material.

If post-consumer recycled content products are not available at the stores where you shop, ask the store manager to begin stocking these products. Shopping online for items with recycled content is another option. Write to manufacturers and ask that they begin producing products with recycled content. Encourage others in your neighborhood, office and community to buy recycled products.
