

# Half Moon Bay Greenhouse Gas Emissions Inventory

2021 Inventory Year

## 2021 GHG Emissions

| Sector                 | MT CO <sub>2</sub> e |
|------------------------|----------------------|
| Building Energy        | 24,055               |
| On-road Transportation | 41,834               |
| Solid Waste            | 6,322                |
| Off-road Equipment     | 2,203                |
| Wastewater             | 335                  |
| Water                  | 31                   |

## GHG Emissions Over Time

| Year | Annual GHG Emissions (MT CO <sub>2</sub> e) |
|------|---------------------------------------------|
| 1990 | 82,175                                      |
| 2005 | 96,676                                      |
| 2010 | 88,483                                      |
| 2015 | 79,267                                      |
| 2017 | 73,907                                      |
| 2019 | 73,093                                      |
| 2021 | 74,485                                      |
