

**San Mateo County BPAC  
Neighborhood “Captain” Responsibilities  
December 2020**

*Background*

In 2018 the Committee has discussed the challenges posed by covering the diverse and far-flung set of unincorporated areas in San Mateo County that are the Board of Supervisors’ (and thus the Committee’s) primary focus. The Committee agreed in concept that it would be productive to ask individual members (and alternates) to take responsibility for covering particular neighborhoods to support the Committee’s work.

*Proposal*

A list of seven (7) areas that we are calling for this purpose “neighborhoods” were developed with the BPAC in 2018. The areas collectively do not cover the entire unincorporated area of the County, but they do cover (i) areas of population density and (ii) key corridors for bicycle and pedestrian traffic, often connecting to corridors within cities and towns.

At our last meeting of the year we will ask Committee members and alternates to volunteer to serve as “captain” for one or more neighborhoods. Ideally we will have at least one captain for each neighborhood, and it would be fine to have co-captains for the larger neighborhoods if there is interest.

*Responsibilities*

- If necessary, familiarize yourself with the neighborhood, focusing on pedestrian and bicycle activity and key corridors
- Keep track of BPAC activities in neighboring towns and cities, with particular focus on initiatives that extend or should extend into unincorporated areas
- Identify and serve as liaison with relevant neighborhood groups, such as Safe Routes to School groups
- Take a leading part in BPAC discussions concerning the neighborhood
- Work with Staff on BPAC comment letters related to the neighborhood

## San Mateo County BPAC – 2020 Neighborhood Responsibilities

#	Neighborhood	Location	Bordering Towns and Cities	Committee Member
1	West Menlo	Area around Alameda south of Atherton, plus Alpine Road corridor (Stanford Weekend Acres, Ladera)	Atherton, Menlo Park, Portola Valley, Palo Alto (including Stanford)	Bill Kelly / John Langbein
