

REDUCE, REUSE AND RECYCLE GUIDE

FOR SAN MATEO COUNTY

OFFICE OF
SUSTAINABILITY
COUNTY OF SAN MATEO

WWW.SMCSUSTAINABILITY.ORG
888-442-2666

REDUCE WASTE

Easy tips to reduce waste:

- Purchase items in bulk to reduce packaging.
- Purchase items that are produced and grown close to home.
- Rent or borrow items instead of buying new ones.
- Use reusable items such as shopping bags, water bottles, travel mugs, food ware (plates, cups, straws and utensils), cloth napkins, pens, pencils, razors and rechargeable batteries.
- Visit www.stopjunkmail.org to learn how to reduce unwanted mail.
- Pack waste free lunches for school and work.
- Reuse one-sided paper for printing or creating note pads.
- Repair items such as clothes, shoes, electronics and furniture. Do it yourself or use local seamstresses, shoe cobblers, repair shops and furniture restoration shops.

SUSTAINABILITY ACADEMY OFFERINGS

COMPOSTING WORKSHOPS

These two-hour workshops are offered throughout the year. Learn how easy and fun it is to recycle your fruit and vegetable scraps, leaves, and plant cuttings into compost! Compost provides valuable nutrients for your garden soil, helps retain moisture which saves water, suppresses weeds, prevents soil erosion, and loosens clay and compacted soils for better drainage and water retention. It is rewarding to know you are turning what some consider waste into a nutrient rich organic material for your garden!

FIXIT CLINICS

These three-hour workshops are offered throughout the year. Fixit Clinics are fun community-based workshops where neighbors, friends, and families work collectively to learn how to repair broken items. We will provide a workspace, specialty tools, and volunteer Fixit coaches to help you troubleshoot and provide routine maintenance to your household items and appliances!

MASTER COMPOST AND SOLID WASTE COURSE

This is an eight-week intensive course that is held once per year. Learn in-depth knowledge of composting and vermicomposting, an understanding of soil biodiversity and all the benefits of adding compost to your soil, and an overview of waste reduction practices. The course is instructed in a hands-on style that teaches participants concrete skills, as well as the theory behind those skills.

MASTER RESOURCE CONSERVATION COURSE

This is an eight-week intensive course that is held once per year. Learn in-depth knowledge of topics including climate change, sea level rise, water and energy conservation, solid waste management, and transportation. Participants have the opportunity to make new connections to people with a common interest, learn cutting-edge resource conservation techniques and theory from local experts, and give back to their communities.

Visit www.smcsustainability.org/academy
or call us at 888-442-2666 to learn about the next workshop or course coming up!

See pages 3-7 for reuse information.

See pages 8-12 for recycling information.

OTHER REUSABLE ITEMS

Bicycles

The following locations fix up old bicycles for resale or donation:

Cardinal Vintage Bike Shop

1955 El Camino Real, Palo Alto
650-328-8900
www.cardinalbikes.com

Silicon Valley Bicycle Exchange

2566 Leghorn Street, Mountain View
650-691-5989
bikex.org

Woodside Bike Shop

1523 Woodside Road, Redwood City
650-299-1071
www.woodsidebikeshop.com

See pages 3-6 for more locations that accept working bicycles only.

Cell Phones and Eye Glasses

Local Lions Clubs take cell phones and sponsor an eyeglass reuse collection program. Many optometry stores contain collection boxes for the eyeglasses.
www.lionsclubs.org

Food**Pacifica Resource Center**

1809 Palmetto Avenue, Pacifica
650-738-7470
pacresourcecenter.org

Accepts nonperishable, eggs, produce and frozen.

Second Harvest Food Bank

1051 Bing Street, San Carlos
650-610-0800
www.shfb.org

Accepts nonperishable and produce.

Village Harvest

San Jose
888-378-4841
www.villageharvest.org

If you have a large amount of fruit or are physically unable to harvest it because of age or disability, they organize teams of volunteers to harvest and share with community organizations.

See pages 3-6 for more locations that accept food.

Medical Supplies

Call or visit their website for the full list.

Breathe California of the Bay Area

1469 Park Ave., San Jose
408-998-5865
www.lungsrus.org
Accepts equipment related to lung disease such as Continuous Positive Airway Pressure (CPAP) machines, nebulizers and humidifiers.

Center for the Independence of the Disabled

2001 Winward Way, Suite 103
San Mateo
650-645-1780
www.cidсанmateo.org
Accepts stair lifts, stair chairs, indoor elevators and porch lifts; no crutches or canes.

MedShare

2937 Alvarado St., San Leandro
510-567-7070
www.medshare.org
Accepts crutches, wheelchairs, etc.

ReCares

Recycling helps to reduce global warming

Manufacturing goods from recycled materials typically requires less energy and water than producing goods from virgin materials. When energy demands are decreased, fewer fossil fuels are burned, and less carbon dioxide is emitted into the atmosphere.

— U.S. Environmental Protection Agency - Climate Change and Waste

HOUSEHOLD HAZARDOUS WASTE

CLOSE THE LOOP AND BUY RECYCLED PRODUCTS

Recycling cans, bottles, paper and other materials is the first step in the recycling process. Take the next step by shopping for products made from recycled materials. When you buy recycled products, you close the loop by incentivising manufacturers to use recycled materials to create their goods.

Buying products made from recycled materials is a simple way to help the environment and ensure the long-term success of curbside recycling programs.

There are a variety of products made from recyclables, such as many types of paper, cereal and tissue boxes, toilet paper, plastic lumber and much more. One ton or 40 cases of recycled paper saves: 17 trees, 7000 gallons of water and 4100 kwh of energy, enough to power the average home for 6 months, 60 pounds of air pollution and 2.5 cubic yards of landfill space.

When shopping, look for products containing the highest percentage of post-consumer recycled material you can find. Post-consumer recycled products are made from the materials you set out at the curbside.

Look for the recycling symbol and a statement that the product is made from post-consumer recycled material.

If post-consumer recycled content products are not available at the stores where you shop, ask the store manager to begin stocking these products. Shopping online for items with recycled content is another option. Write to manufacturers and ask that they begin producing products with recycled content. Encourage others in your neighborhood, office and community to buy recycled products.
